Education and Care National Regulations 2011- Regulations 102B requires a transport risk assessment to be conducted before our service transports any child. Regulation 102D requires our service to receive written authorisation to transport children. Our service has completed a risk assessment to identify and assess any risks that the transportation of a child may pose to the safety, health and wellbeing of the child. This has been authorised by the Approved Provider and is available to sight at our service. **Policies and procedures for transporting children are also available to view.**

Regular transportation means the transportation by the service or arranged by the service of a child being educated and cared for by the service, where the circumstances relevant to a risk assessment are substantially the same for each occasion on which the child is transported. An authorisation is only required once in a 12-month period.
